

SKILLS 4 CIRCULARITY

Upskilling & Reskilling for Circular Textiles

THE PROJECT

Driving the green and digital transitions in the European textile industry through innovative upskilling and training for circularity. The main objective is to enhance the competitiveness, resilience, and sustainability of the European textile industry by fostering a skilled workforce capable of driving the digital and green transitions.

THE PROJECT'S JOURNEY

Context Analysis

A Textile Green Skills Foresight Report to understand future occupational profiles and the long-term skill needs.

Training

Virtual specialized training for operators, technicians, engineers, managers, and trainers.

Bootcamps & Hackatons

8 bootcamps and 2 hackathons across Europe to solve real-world challenges of the textile sector.

Textile Skills Observatory

Dynamic online hub for industry trends, skills demand-supply data, and evidence-based policy insights.

TARGET GROUPS

-  Current and future textile industry professionals
-  VETs and HEIs
-  Industry clusters and associations
-  Policymakers
